recitation of "the other of said two fluid flow passageways" with "said second fluid flow passageway". Application Claim 11, which was withdrawn from consideration at the time the May 26, 2005 Amendment was filed, depended from application Claim 1. Application Claim 11, after it was added back to the application, still recited "said other of said two fluid flow passageways", and the form of this claim was not revised to conform to the revisions made to independent Claim 1 in the May 26, 2005 Amendment.

The recitation "said other of said two fluid flow passageways" corresponds to the recitation "said second fluid flow passageway" as revised in parent independent Claim 1. The proposed Certificate of Correction seeks to amend the form of patent Claim 9 (which corresponds to application Claim 11) to conform to the revisions made to parent independent Claim 1 to provide antecedent basis for the recitations in application Claim 11 (patent Claim 9).

The enclosed Certificate of Correction also seeks to correct a typographical error in patent Claim 15 (which corresponds to application Claim 17) to substitute the term "passageway" for "passageways".

The Patentee submits that the errors sought to be corrected by the proposed Certificate of Correction occurred in good faith,

and do not involve any changes which would constitute new matter or require re-examination.

The Patentee therefore respectfully requests that the enclosed Certificate of Correction be approved and issued by the Patent & Trademark Office.

Enclosed is the required fee for the issuance of the requested Certificate of Correction.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Mark P. Stone', written in a cursive style.
